

How to install an advert blocker on Google Chrome

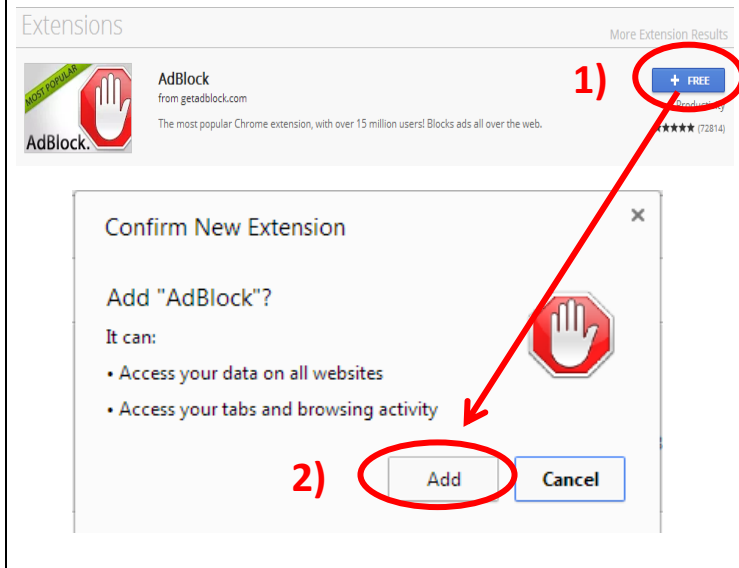

1) Open up **Google Chrome** and click on this icon  and on the drop down menu under the **“Tools”** option select **“Extensions”**.

2) Once the **“Extensions”** page is open, click on the **“Get more extensions”**.

3) In the “**Extensions**” tab search for “**Adblock**” in the top left corner.

4) After you have searched for “**Adblock**” click on the blue icon that says “**Free**”. A pop up confirmation will come up, once this comes up click on “**Add**” and that’s it, **Google Chrome** will automatically install Adblock. To confirm this, an icon should appear at the top right corner that looks like this
